Dear Lou:

Thank you for your assistance during our recent Project in Seattle. Your staff and field personnel were professional and courteous. They worked to achieve our goals and finished within our schedule. My main goal was to reduce the impact to the Shaw office staff, and that result was accomplished. The multi-faceted nature of your company including supplying the furniture, providing and install the carpet, and relocation was a good fit for this project. With my office on the east coast and the project on the west coast it was great to have a company I could trust to GET THE JOB DONE! Thanks Again

Respectfully,
